

I would like to voice my concern over the possibility of losing the signal for the Air 1 Radio network. Air 1 has had a tremendous effect in my life and many others, so much so that I financially support their effort to bring quality, family-friendly programming to the airwaves. Losing Air 1 would be detrimental to the spiritual lives of thousands in the San Bernardino County area. Air 1 gives positive encouragement in not only their music, but also their comments in regards to marriage, purity and other moral issues. I cannot see how displacing Air 1 with an LPFM would benefit the community at all. Please make sure that Air 1 remains a strong and clear signal in this area. Thank you very much.
